

Hi, Gang:

SCHC is planning on a "Fox Hunt" sometime in the near future.

Frank Dolan, N7WUB, is constructing a 2-meter Cubical Quad antenna which could be used as a portable "Fox Hunting" antenna. The plan is available in QST - September 1980 issue, page 26. A part 2 is also .

Bill Painter, N7AOB, showed his creation of a 3-element Yagi 2-meter portable beam constructed from pieces of 1" measuring tape for elements and 1/2" PVC pipe and fittings, at the last club meeting. The ma

Eric Nordin, AD7BF, related another VHF Direction Finding antenna useable for Fox Hunting activities. It is a twin-vertical phased arrangement and can be used atop a vehicle, or hand-carried. He provided

In the event that you can't see .JPG format on your computer, let me know and I will attempt to mail you a copy by "snail-mail". I could also provide a copy of the Cubical Quad plans if necessary. Time i

I have about completed the easy plan for the "tape measure" version above. I haven't tested it yet, but it should perform as advertised!

More about the Fox Hunt will follow.

73,

Gary W7MGG
